CHARLES TOWN, Dec. 14.

THIS Day arriv'd here from the *Havanna*, the *Postillon* Sloop, Captain *Lightwood*, sent by this Government with a Flag of Truce for a second Exchange of Prisoners with the Governor of *Cuba*.

She brought away with her 113 *English* Prisoners, and among them Capt. *Green* of *Liverpool*, who was taken on the Coast of *Guinea* some time ago, and the valiant tho' unfortunate, Capt *Mark Anderson*, with part of his Crew. This Gentleman commanded the *Loyal William* Brigantine, (mounting 14 Carriage Guns, 8 whereof were 4 Pounders and 6 3 Pounders, besides Swivels, and mann'd with 74 Men,) the first Privateer fitted out from this Province, and sail'd on a Cruize from this Bar on the 14th of *October* last, in Quest of a Pay Ship daily expected at *St. Augustine*, &c. On the 16th, about 1 o'Clock Post-Meridian, he espied Four Vessels, two whereof immediately separated from the others and bore away for *St. Augustine*, the other two bore down upon him, and were the Pay-Ship (a Man of War Snow of 14 Carriage Guns, 6 Pounders besides Swivels, and 128 Men) and a Privateer Sloop (of 12 Carriage Guns, 4 Pounders, besides Swivels, and 120 Men) Capt. *Anderson*, having made the usual Preparations, and perceiving the Enemy's Motions were to get the *Loyal William* between them, disappointed them, by chasing the Sloop first, in order to keep her at a good Distance from the Snow, so to facilitate an Attack upon her which he had resolved upon; he attack'd her accordingly, and engaged for two Hours very smartly, within Pistol-shot, 'till the Sloop came up again and assisted the Snow, he was then oblig'd to maintain a running Fight which continued 'till 9 o'Clock at Night, when finding himself between the Snow and Sloop, the Engagement grew hotter, and continued about an Hour longer, and the following Difficulties, oblig'd him to strike to them, viz. his Main-Sheet and Topping Lift was shot away, the Boom in the Water, the Fore-sheet & Top-sail Tye shot away, hardly a Shrowd or Stick they standing free not shot; the Fore-mast wounded in two Places, so that in all over the Side the same Night, carrying along with it the Main-top-Mast and Foremast, the Gunnroom of the Snow shot away, all the Sails shot to Rags, the Man of War right to Windward, the Sloop under his Stern, and the Chase on his Lee. The Men behaved during the whole Engagement with extraordinary Spirit and Resolution, and did all that brave Men could do with such superior Force, and considering other Circumstances that prov'd advantageous to the Enemy.

Capt. *Anderson* had but two Men kill'd and Four wounded, one of which had his Arm shot off.

The Man of War Snow receiv'd considerable Damage, and had 9 Men kill'd and a great many wounded; She had on board 19 Chests of Money, besides divers Stores for *St. Augustine*. The two *Spanish* Vessels which bore away before the Engagement began were laden with Provisions. The Sloop had but one Man kill'd.

The *Loyal William* was afterwards cast away on the Rocks of Cape *Florida*, and nothing sav'd excepting her Cannon and 30 Barrels of Flour, the small Arms having been thrown into Sea by Capt. *Anderson*'s own Men after she struck.

This is the first *English* Privateer that has been taken since the War with *Spain* commenced, and may it be the last.

LONDON, August 25.

A private Letter from a Person of Distinction at the Hague dated August 20th, 1743, concludes with this remarkable Paragraph:

'They are in the Wrong, who either condemn the slow Motion of the Army of the Allies, or the Conduct of the States, and believe me, Malice only, or Ignorance dictates such Censures. The Scheme of the present War, is to determine at once, whether France shall, or shall not, give Law to her Neighbours. This Campaign will probably decide that, for unquestionably, the Movements of the Allies, testify a Resolution to penetrate into France directly. As to the Measures pursued by the States, they are not more cautious than was necessary; her Troops will join the allied Army next Week, and take their Share in those Operations which are to fix the Fate of Europe.

We are told from Paris, that the Parliament will forthwith register the Edict which lately passed in the Council of State, concerning the Encouragement to be given to the Privateers of France: According to the Edict, the Privateer is to put the Essence of sitting out his Ship and all other Charges in Ballance against the Value of his Prize, and then to pay Ten per Cent. to the Admiralty out of his clear Profit, if there be any.

August 27. The Rt. Hon. the Lords of the Admiralty have put his Majesty's Ship the Boyne into Commission, and given the Command thereof to Captain Dukes.

On Thursday an Order came down from the Master of the Ordnance, for shipping immediately 40,000 Weight of Bullets, besides a large Number of Cannon Ball, for the Service of his Majesty's Army in Germany.

Plymouth, Aug. 23. An Order is come down for his Majesty's Ship the Chichester of 80 Guns, to sail to Spithead the first fair Opportunity of a Wind; and Admiral Balchen with the Ships under his Command to hold themselves in Readiness to sail on the first Notice.

Paris, August 25. Two Things take up all the Attention of our Ministry; the one, to find a Fund for the Main tenance of 400 000 Men, which we are to have in the Field next Year: To lighten this, a Resolution is taken to turn all the Marshalsea of France into Troops, and to make a new Augmentation of the Foot. The second Thing is, to establish a Maritime Power in an Instant; and with this View, all the India Ships (except a very small Number) are taken for the King's Service, and converted into Men of War. — By which 40 Sail of 60 and 70 Gun Ships are at once added to the Navy: with this unlucky Circumstance, That never any Act of State so much alarmed the Nation, since it looks as if the Care of Trade was at an End, and we were determined to make War against every Body, and forever.

London, August 30. On Saturday last in rumaging the Peter and Joseph, the Squirrel's Prize, there was found in her Quarter-Gallery sixty Pounds Weight of Gold, besides 344 Dollars, which, added to her former Effects, makes her the richest Prize taken since the Commencement of the War.

On Saturday last by an Order from the Office of Ordnance, some of the Tin-boats, which was contracted for by the Surveyor of the Tower to go to Flanders, was sent down the River to Woolwich, in order for Embarkation.

Private Letters from Lisbon mention their having received Advice there from Macao, dated in the Month of February, importing, that the Emperor of China had forbid the Dutch all Commerce in his Dominions, on Account of the Severity of their Proceedings against the Chinese at Batavia; a full Relation of which had been published at Peking, and dispersed over the whole Empire.

The Count de Goes, whom her Hungarian Majesty has appointed Administrator of Bavaria, is gone lately from Reichenshal, where he took an exact Account of the Produce of the Mines at Munich, with Intent, as is given out, to summon all the Nobility, as well of the Upper Palatinate, as of Bavaria, to take the Oaths to the Queen, as Sovereign of Bavaria

By the same Letters we are informed, that all such of the Bavarian Nobility as have retired out of the Electorate, during the late Troubles, are summoned to return at a Day certain, under Pain of having their Estates confiscated, and being themselves treated as Traitors.

We hear from Paris, That his Most Christian Majesty, besides taking their Ships into his service, has required fifteen Millions of Livres of the French East India Company.

Admiralty Office, August 25. His Majesty's Ship the Jersey, commanded by Captain Harry Norris, arrived Yesterday at Spithead, and brought in a Prize call'd the Dauphine, Simon Lagora, Master; from La Vera Cruz and the Havanna, laden with a very valuable Cargo of Cochineal and Indigo. She was taken the 6th Instant, by the Hon. Captain John Byng, in his Majesty's Ship the Captain, in the Latitude of 46 47, Belle Isle bore N E by N about 13 Leagues.

Lieutenant-Governor and Commander in Chief in and over his Majesty's Province aforesaid.

A Proclamation.

WHEREAS by the Acts of the General Assembly of this Province, *for the Regulation of the Indian Trade in this Province*, it is among other Things enacted, That no Person or Persons whatsoever, other than such as should duely obtain a Licence for the same, should presume to trade, traffick, barter or exchange any Goods, Wares or Merchandizes whatsoever, with any Indian or Indians in Amity with this Government (except the *Ittewans*, *Cussoes*, *Winyaws*, *Cape-Fears*, *Keywaws*, *St. Helenas*, and *Edistoes*) within the following Bounds and Limits, *that is to say*, from the Mouth of *Savannah-River* up the same River Twenty Miles above the *Savannah* Garrison, & from thence in a Line to the old *Congree* Garrison on *Santee-River*, and thence to the Mouth of *Lynche's* Creek on *Peedee-River*, under the Penalty of forfeiting and paying the Sum of *Five Hundred Pounds*, Proclamation Money, for every Time he or they should so trade, traffick, barter or exchange with, or for any Goods, Wares or Merchandize whatsoever, contrary to the Tenor of the said Laws; and which said Sum of *Five hundred Pounds* Proclamation Money, should be forfeited and paid the one Half to such Person and Persons as will inform and sue for the same in any Court of Record in this Province.

AND WHEREAS notwithstanding the good and wholesome Provisions made by the said Acts, diverse evil-minded Persons have presumed to encourage diverse Indians prohibited by the said Acts, to come down within the Bounds and Limits aforesaid, to trade and traffick with them for Rum, and other Goods, Wares and Merchandizes, to the great Terror, Loss and Damage of the Inhabitants of the Out-Settlements, and to the great Hurt and Mischief of the said Indians, in debauching and intoxicating them with Rum and other strong Liquors, and thereby taking them off from their natural Industry & Love to Hunting, by which they used to provide for the Support of Themselves and Families, insomuch that Application hath been made to me, by the Headmen of the *Catabaw Indians* in particular, to prevent such pernicious and destructive Practices for the future. For Remedy therefore of the like Evils for the future, I have thought fit by and with the Advice and Consent of his Majesty's Honourable Council, to issue this my Proclamation, hereby strictly forbidding all Persons whatsoever from trading, bartering or exchanging any Goods, Wares and Merchandize whatsoever, and more especially Rum or other strong Liquors, with the *Catabaws*, *Uchee* and other *Indians* (except those excepted by the said Acts) within the said Bounds and Limits, upon pain of being prosecuted for every Time they shall transgress in the Premises, with the utmost Rigour of the said Laws.

Given under my Hand, and the Great Seal of this his Majesty's Province, at the Council-Chamber in Charles-Town, *the* 16th *Day of* December, 1743. *and in the* 17th *Year of His Majesty's Reign.*

By his Honour's Command,
John Hammerton.
